E. C. HERRING,
Garland, N. C.

THE CAUCASIAN.

Pure Democracy and White Supremacy.

VOL. IX.

CLINTON, N. C., THURSDAY, FEBRUARY 19, 1891.

No. 19.

THINK!

JUDICIOUS ADVERTISING

CREATES many a new business.
ENLARGES many an old business.
REVIVES many a dull business.
RESCUES many a lost business.
SAVES many a failing business.
PRESERVES many a large business.
SECURES success in any business.
Therefore advertise in a paper, people, one the people are anxious to read.

NEWS OF THE WEEK.

VARIOUS ITEMS OF INTEREST
GATHERED AND BRIEFLY
STATED SINCE OUR LAST
ISSUE.

In Pennsylvania there are 10,000 miners on a strike.

The Watterson letter to Hill is pronounced a forgery.

The Railroad Commission bill has passed the Legislature.

The cloud that has so long lowered over the republican horizon has now a silver lining.

Girard College, Philadelphia, Pa., boards, takes care of and educates sixteen hundred boys.

Harrison has not smiled but once since the November election, and that was when he read the Cleveland silver letter.

It is stated that the President and party will make a visit to the Pacific coast, which will take in the South during the journey.

Gen. Wm. T. Sherman died in New York City on Saturday.

He lived over seventy years of a very eventful and long to be remembered life.

Mrs. Laura B. Whitney, widow of Col. Samuel B. Whitney, Seventh Illinois Volunteers, gets \$25,000 in one pile in pensions. And that is the way the people's money flies.

There were 1,117 novels published in the United States in 1890. Probably twenty were worth reading. It is doubtful if one of them will live two decades.—Wilmington Messenger.

The Legislature is moving on. It has neither run around nor been ripped up by a snag. The House of Representatives will rank high in the annals of North Carolina.—New Berne Journal.

The authenticity of the Hill Watterson letter has been questioned. Gov. Hill should listen to the truth. Scripture is no less scripture even when the devil quotes it.—New Berne Journal.

The New York Tribune informs us that President Harrison is anxious to "preserve the record of his administration free from stain and blot to the end." If whitewash can do it he will succeed.—Wilmington Star.

The North Carolina Baptist, the new church paper started in Fayetteville, makes a good appearance, and will be doubtless welcomed by the denomination in whose interest it is published. It is published by Rev. T. B. Newberry.

For the present Mr. T. B. Kingsbury will have charge of the editorial columns of the Wilmington Messenger. He has done all the writing for the Messenger, with the exception of local and few other columns, since May, 1889.

On last Friday night the town of New Bern was alarmed by the explosion of the boiler of the J. B. Denison's gin and oil mill. The boiler was blown to atoms, instantly killing one man and fatally injuring another. The loss is estimated at \$20,000. Partial insurance.

Ex-President Cleveland has written a letter against free coinage of silver, and has been elected to the position of President for the year 1892, though it can be said to his credit that we believe he is honest in his convictions, speaks for what he thinks and lets the result be what it will.

Hon. Kemp P. Battle, of the University of the State, has resigned his position as President and has been chosen to fill the Chair of History. He did not state his reasons for his course. His resignation takes effect next June. We fear that the State is to sustain a great loss in the President's resignation.

The organ of the colored people of New Bern asks Harrison to appoint a negro Secretary of the Treasury. Oh, no. The Republicans want the black man's vote, but they don't propose to divide the offices with him. They believe in white man's government, but not in a black man's ballot.—N. Y. Herald.

Admiral David D. Porter, who has been failing in health for some years, died suddenly on last Friday morning at his residence in Washington City. The Admiral's death was caused by fatty of the heart. He was the great Federal Naval Commander of the civil war, living a long as well as renowned life, having been born at Chester, Pa., June 8th, 1813.

Senator Vance was interviewed upon the recent utterance of President Cleveland against the free coinage of silver. He said: "Mr. Cleveland's position on the silver question is not a common difference, but a defiance of his party. His whole attitude on this subject is one of defiance. It is now a question whether the Democratic party will sacrifice its principles or give up Mr. Cleveland. Under the circumstances I prefer my party to Mr. Cleveland."

No longer hindered by the grim specter of Federal interference, let us unite to make North Carolina the land of progress, intelligence and happiness. Lift high the standard of education and perfect the public school system; open new channels of trade and create opportunities of commerce; unlock the prison doors that confine riches in mountain fastnesses, hidden valleys, tangled wildwood and ocean depths, and the blossoms of hope will ripen into rich harvests. Then will we enter our temples with thanksgiving and fill their courts with grateful songs.—New Berne Journal.

TRUCKING INTEREST.

What The Argonaut Has to Say
on this Important Subject.

The conditions which are most favorable for the profitable cultivation of vegetables and fruits for market, are a suitable soil, early maturity, cheap labor, and rapid transportation. All these conditions exist in Eastern North Carolina to a greater extent than at any other point on the Atlantic coast. Only eighteen hours from New York, we can put our vegetables and fruits in any of the Northern markets in a condition as fresh as the localities near by. In this particular, as well as in the cost of transportation we have largely the advantage of the States South of us, and the consequence is, that although Florida vegetables get in market ahead of us, they do not bring as high prices as those shipped from North Carolina, from the fact that they are not so fresh. It is also true that when the distance is so great, a large quantity is lost from decay before reaching market. As our vegetables get in market ahead of those shipped from any point North of us, and yet get there in a fresh and nice condition, we get much better prices. Thus it will be seen that Eastern North Carolina as to location, occupies the most desirable position of any State on the Atlantic Coast.

The soil of this section is especially suited for trucking. It is warm and friable, and easily cultivated, and susceptible of a very high state of improvement. The experiments which have been made, fully demonstrate that no better, or more suitable soil for the purpose can anywhere be found. The facilities for transportation for much of this territory are such as to make it a very important factor in the trucking business. During the season, past a special train on for the accommodation of the trade. The territory north of the Albemarle sound finds shipping facilities by the S. & R. N. & C. and the W. & A. roads. The territory south of the Albemarle sound finds shipping facilities by the S. & R. N. & C. and the W. & A. roads. The territory south of the Albemarle sound finds shipping facilities by the S. & R. N. & C. and the W. & A. roads.

The trucking season begins in January and ends in June. The truck lands are then planted in cotton, corn and millet, or allowed to grow in native grass for hay. To illustrate the capability of our lands in this particular, Mr. Geo. Allen, of New Bern, on September 1st, 1885, planted one acre of cotton, corn and millet, and during February 1886. In March the ground was planted in bunch or snap beans. The crop of 1886 half barrel boxes was gathered during the first half of June. The land was then sown with German millet which was cut September 1st and weighed, after being well cured, 9,000 pounds, giving three profitable crops within twelve months. We give this instance to illustrate the capacity of our soil, and such has been the success which has attended the experiment, and the enormous profits of the business, that already it has developed into large proportions, and is destined to become one of the most important industries of the most important in Eastern North Carolina. The number of crops which can be made on the same land constitutes a great advantage. The trucking season begins in January and ends in June. The truck lands are then planted in cotton, corn and millet, or allowed to grow in native grass for hay. To illustrate the capability of our lands in this particular, Mr. Geo. Allen, of New Bern, on September 1st, 1885, planted one acre of cotton, corn and millet, and during February 1886. In March the ground was planted in bunch or snap beans. To illustrate the capability of our lands in this particular, Mr. Geo. Allen, of New Bern, on September 1st, 1885, planted one acre of cotton, corn and millet, and during February 1886. In March the ground was planted in bunch or snap beans. The crop of 1886 half barrel boxes was gathered during the first half of June. The land was then sown with German millet which was cut September 1st and weighed, after being well cured, 9,000 pounds, giving three profitable crops within twelve months. We give this instance to illustrate the capacity of our soil, and such has been the success which has attended the experiment, and the enormous profits of the business, that already it has developed into large proportions, and is destined to become one of the most important industries of the most important in Eastern North Carolina. The number of crops which can be made on the same land constitutes a great advantage.

The trucking season begins in January and ends in June. The truck lands are then planted in cotton, corn and millet, or allowed to grow in native grass for hay. To illustrate the capability of our lands in this particular, Mr. Geo. Allen, of New Bern, on September 1st, 1885, planted one acre of cotton, corn and millet, and during February 1886. LOCALS.

—Our foreman has the La Grippe.

—Our town is being improved in appearance by the pruning of our shade trees.

—The Clinton Literary Club meets at the residence of Dr. A. M. Lee on Friday night.

—Bishop Watson of the Eastern Diocese of the Episcopal Church, will hold services in St. Paul's church on next Sunday.

—Messrs. F. T. Atkins and Beatty Mathis shipped their horses, named Bob Lee and Cleveland respectively, to the New Bern Fair yesterday morning.

—Mr. W. H. Stetson has opened a new buggy and repair shop on McKoy street. We hope him, as an old and worthy citizen, success in his new enterprise.

—T. M. Ferrell intended to call attention last week to the cheapest "mattress ever bought," but the printer made him say cheap mattresses. A "slight" difference in the two necessities of life.

—An Indian, of the Cheyenne Tribe, delivered two lectures in this town on last Thursday and Friday nights on the Advancement of the Missionary Cause among the Indians. He is a good lecturer and well presents his argument.

—Please let us call your attention to your indebtedness to us. If you do not meet your payments, of course we cannot defray our expenses. This error, we hope, has been an oversight with you, and that you will therefore correct the same at once.

—On the second page you will find a statement that will inform you why there was not a Raleigh letter this week. We very much regret that our readers are disappointed by this deficiency this week, and had we received the statement from Mr. Nicholson in time, as well as one from the editor and proprietor of the paper, stating the situation of affairs, we would have given you a short synopsis of the Legislative proceedings for the past week in a home-manufacture.

Autryville Dots.

(Special Correspondent.)

Died, at his home, in this place, Sunday, February 1st, Mr. Louis Autry. He was a young man well thought of by all who knew him. He leaves a wife and one child besides numerous relatives to mourn their loss.

The school is progressing finely. About fifty-six pupils are now enrolled, and others are expected soon.

We were highly pleased to see Misses Mary Hicks and Mary Bullard on our streets last week. We trust that they may have business in Autryville, and never fail to attend to it.

Mr. B. L. Culbreth has recently returned from an extended trip in Eastern Sampson. He is giving a glowing account of his travels, and the hearty welcome given him by his many friends.

Mr. Jimmie Underwood, of Richmond, Va., is visiting his parents here.

Mr. Lonnie Underwood, of Newton Grove entered school here last week; also Miss Betty Hair.

Miss Sophie Mitchell, of Hayne, is spending some time in town with Mrs. Thomas Cooper.

Miss Maggie Gainey spent last week in town with her sister, Mrs. L. W. Strickland.

CORRESPONDENT.

Davidson College Notes.

(Special Correspondent.)

We are having some very disagreeable weather at present. Umbrellas and over-shoes are hard to keep up with.

The students and citizens of Davidson spent a very agreeable evening at Mrs. Stewart's home last Sunday, at an entertainment given for a new church, in the vicinity of Davidson. The net proceeds amounted to \$63.00.

The Societies have occasioned some little excitement in electing marshals. They are as follows:

From Phi.—J. R. Schenck, Greensboro, N. C.; 2nd, J. S. Hall, Wilson, N. C.; 3d, H. H. Rankin, Fayetteville, N. C.; 4th, D. K. Williams, Wilson, N. C.

From Eta.—1st, Robt. Southward, Mt. Olive, N. C.; 2nd, F. S. Robinson, Union, S. C.; 3rd, M. Harris, Mooresville, N. C.; 4th, Wm. Stokes, Savannah, Ga.

Chief Marshal came from the Eta Society this year. W. W. Morris was elected.

Mrs. Prof. Vinson and children have returned from Florida, where they have been spending the last two or three months.

Dunn Items.

Miss Bettie H. McKay, of Dunn, who has been visiting Littleton and Dunn's Level, for the past three weeks, returned Wednesday, accompanied by our clever County Treasurer, Mr. A. L. Ryd.

Mr. R. A. Hales, of Dunn, who has been visiting his mother at Autryville, returned Tuesday morning. We were glad to see our friends return home.

NORTH CAROLINIANS ABROAD.

What the Deport, Texas, Times Has to Say About Our Boys in the Lone Star State.—A Word for ourselves.

The Times, in its issue of the 6th inst., did the editor and proprietor of this paper the honor of clipping his article entitled "What is the Matter with North Carolina?" and in its comment on the article had the following to say:

"We copy the above highly interesting article from THE CAUCASIAN, published at Clinton, N. C. The clean, bright, spicy, newsy, well-filled with home news; Marion Butler, editor and proprietor; subscription price \$1.50 per year, in advance. The Times would infer, in advance, that the 'Tar Heel' State, and that more civil or industrious class of people could not be found anywhere upon the face of this great continent. They are all thriving, enjoying life, keeping abreast with the spirit and progress of the times, and have the low-men and the common community generally. Among some of the men, who from Clinton, we will mention W. P. K. Faison, F. F. Marable and J. H. Register. The first named gentleman resides at Clarksville, Tex., is editor of the Clarksville Enterprise, one of the leading and influential Democratic weekly journals of the State, who is a talented writer, is doing much towards developing the interests and resources of his section. The latter gentleman, who resides in Deport, have been several years, and through indomitable pluck, energy and vim have sustained of themselves a fair competency of partners in the dry goods business with J. E. Hughes & Co., one of the largest and most extensive establishments of the kind in North Texas, and continually add new friends and as enjoy a healthy and lucrative trade. Sam B. Lofton, from one of the counties near Clinton, has located a large body of land, containing several hundred acres, at Tulsa, Tex., and he proposes to engage in farming and ranching business on a large scale, live near Deport, we note A. P. Shuman, D. W. Jarvis, J. A. Ginn, W. P. Bolton, J. P. Pittie, John Colwell and A. L. Colwell. They are all well-to-do in their respective callings, and make it a specialty to 'make hay while the sun shines.' The 'Tar Heels' wonderfully bring all their old acquaintances, and bring as the latter and full fledged Texans in their customs and manners, it would not be right to dub them 'terrier' dogs."

We thank our esteemed exchange for its complimentary remarks, both in regard to our absent friends and ourselves. The Times is a clean and newsy paper which worthily deserves the patronage of its people.

THE SAMPSON BOYS

At Wake Forest Pay a Tribute.

WAKE FOREST, Feb. 10, 191.

We the representatives of Sampson county at Wake Forest College, lamenting the death of Julius A. Boynton, late editor of the Wilmington Messenger, offer the following resolutions:

1st. That, as editor of the Goldsboro Messenger and afterwards the Wilmington Messenger, he has been Goldsboro and Wilmington, the North Carolina, and we might say to the whole South.

2d. That the Democratic party has in his death met with irreparable loss and we might insert on his monument Thurman's words: "Here lies a Democrat, a man who breathed Democratic air."

3d. That our county has ever felt for good the influence of the noble, patriotic and public spirited man and we deeply feel our loss by his premature death.

4th. That a copy of these resolutions be sent to the family of the deceased and to the Wilmington Messenger.

P. M. ROYALL, Chairman.

J. E. FOWLER, W. A. HOBBS, E. E. ALDERMAN, E. M. HOBBS, C. D. PETERSON, O. J. PETERSON, J. A. OATES, Secretary.

Personals.

Assistant Clerk, D. B. Nicholson, of the Legislature, spent last Sunday at home.

Mr. W. R. Allen, of the Goldsboro Bar, was in town yesterday on professional business.

Miss Martha Johnson, who has been visiting in Fayetteville, returned home Tuesday evening.

Mrs. Dr. Wickliffe and daughter, Miss Lillie, of Brookneal, Virginia, are visiting Dr. Frank Boyette.

Free Course of Tuition at the University

We notice that the Professors of the University have established a Course Free of Tuition, especially for Teachers beginning March 15th, 1891, and lasting ten weeks. Those interested should write to President Kemp P. Battle for particulars.

Married.

In Duplin county, on the 28th of January, Joseph L. Dickson, Esq., son of Dr. James G. Dickson, deceased, to Miss Sallie J. Cameron, daughter of the late Maj. John Cameron.

Neurotic Persons

And those troubled with nervousness resulting from care or overwork will be relieved by using **Brown's Iron Bitters**. Genuine has trade mark and crossed red lines on wrapper.

After all, the best way to know the real merit of Hood's Sarsaparilla, is to try it yourself. Be sure to get Hood's.

All Through Sampson.

What Sampsonians are Doing and Saying.

Send us the news from your township for this column. Every subscriber to this paper has a right and is requested to contribute items of news in "his" neighborhood for this column. We will not publish your name unless you desire it.

DISMAL.

Messrs. I. C. Strickland and H. S. Warren have been struck by lightning and Big Neck, Cumberland county, and began to saw on the 10th instant, and without a moment's warning a key flew out, dropped the piston rod on the top of the boiler, broke off a large hole in the boiler, broke off the cylinder head, and doing other damage, which is estimated at about \$100. We are glad to learn that no one was wounded.

We are looking for a nice time at Bethany on the 14th and 15th, as the M. E. Conference convenes with the church at that time.

Mr. Hector Strickland and wife have been visiting their two sons in Georgia. They returned on the 13th. We bid them welcome.

LITTLE BUSY.

Married, at the residence of Mr. James Jackson, on February 3d, Mr. Thomas Smith and Miss Martha Sutton, daughter of Mrs. Nancy Sutton, James A. Warwick, Esq., officiating.

The members of Piney Grove Baptist church, are especially requested to meet at their church on the first Sunday in March at 11 o'clock A. M. Preaching expected on that day, and important church matters to attend to.

Prof. H. E. Brewer, the superintendent of the Sunday school, is greatly encouraged, and the outlook now is that this will be one of the best schools in the Association.

Mr. Nathan Weeks, who has been seriously ill for sometime, is not any better and is still in a very critical condition.

The negro Amos, reported killed a short time ago, was severely stunned, and has nearly recovered.

Hurrah for our Representatives and the Railroad Bill!

Who will be the lucky man appointed Justice of the Peace for this township? There is a considerable contest.

HALLS.

Married, on the 15th day of January, at the residence of the bride's father, Mr. Wm. B. Warwick, Mr. Robert A. Carter and Miss Katie W. Warwick, James A. Warwick officiating. The attendants were: Mr. D. G. Cason with Miss A. E. Warwick; Mr. L. L. Jones with Miss Josephine Carter; Mr. Milton Baggot with Miss M. J. Warwick.

FRANKLIN.

Mr. C. Martin and wife, of Bladen county, are visiting relatives in this section.

IN MEMORIAM.

First ten lines free, 5 cents (half of advertising) for each subsequent line, counting 6 words to the line.

SILAS BASS.

Died, at Warsaw, N. C., January 23d, 1891, SILAS BASS, aged 70 years. He died after a few hours illness of heart failure, being generally strong and robust for a man of his age. He was not, as was announced in these columns in a recent issue, a member of the church, but in his latter years, at least, evinced a great respect for religious matters. He had been in the employ of the W. & W. Railroad for forty-seven years, and as a remarkable testimonial to his great fidelity to duty the railroad Company retired him on pension in his old age and gave him the light duty of superintending a section pump. Of a quiet retiring disposition he was best known and appreciated by children and grand children who deeply lament their loss.

ROBERT J. HUFFHAM.

The pastor, Rev. O. P. Meeks, had to perform the sad duty of officiating at the funeral of ROBERT J. HUFFHAM, on Monday, February 9th, at Turkey, where he died in America, Ga., of pneumonia, on February 6th. Just one month before his wife, Sallie S., daughter of Wm. H. Faison, died, and we laid her remains to rest. Robert had gone to Georgia to seek employment for the better support of his motherless children, was taken sick on his way, and died in a few days. He was a brother of Rev. Dr. J. D. Huffham, of Scotland Neck. He and his wife were both members of the Warsaw Baptist church; aged about forty years. They leave six dependent little children, for whose watch-care of relatives and friends.

The Medical Profession.

The attitude of the medical profession toward what is known as "patent medicines" is not at all unreasonably. Thousands of these nostrums are offered to the public every year. Some of them are dangerous, and most of them are worthless. To say is not classed among the wholesome preparations of physicians in all parts of the country, and some of the strongest testimonials in its behalf come from medical men who have used it in their practice, and who do not hesitate to endorse it with gratifying results. This is extreme testimony, but every citizen who put forward in behalf of S. S. S. is based on a series of actual experiments extended over a long period of time.

Pennyroyal Pills

SEVERE ARRANGEMENT.

THE SECRET CRIMES AND SINS OF SUPPOSEDLY GOOD PEOPLE.

Dr. Talmage Delivers a Practical Sermon on the Necessity of Reform Among Those Who Pretend to be Right—Fraud, Adulteration and "Cancers."

BROOKLYN, Feb. 15.—Great audiences again assembled at the service by Dr. Talmage in the Brooklyn Academy of Music this morning, and also at The Christian Herald service in the New York Academy of Music in the evening. The remarkable interest in the latter continues without evidence of abatement. At the service in New York last Sunday evening there were many emotional episodes among the vast audience, and to-night these were repeated, hundreds pledging themselves anew to Christian lives henceforth. Dr. Talmage took for his text at the Brooklyn Academy: "Faith without works is dead" (James i, 20).

The Roman Catholic church has been charged with putting too much stress upon good works, and not enough upon faith. I charge Protestantism with putting not enough stress upon good works as connected with salvation. Good works will never save a man, but if a man have not good works he has no real faith, and no genuine religion. There are those who depend upon the fact that they are all right inside, while their conduct is wrong outside. Their religion, for the most part, is made up of talk—vigorous talk, fluent talk, beautiful talk, perpetual talk. They will entertain you by the hour in telling you how good they are. They come up to such a higher life that they have no patience with ordinary Christians in the plain discharge of their duties.

As near as I can tell, this ocean craft is mostly sail and very little tonnage. Foretopmast staysail, foretopmast studding-sail, maintopmast, mizzen-topmast—everything from flying jib to mizzen spinnaker, but making no useful voyage. Now, the world has got tired of this, and it wants a religion that will work into all the circumstances of life. We do not want a new religion, but the old religion applied in all possible directions.

Yonder is a river with steep and rocky banks, and it roars like a young Niagara as it rolls on over its rough bed. It does nothing but talk about itself all the way from its source to the mountain to the place where it empties into the sea. The banks are so steep the cattle cannot come down to drink. It does not run one fertilizing rill into the adjoining field. It has not one grist mill or factory on either side. It sorks in wet weather with chilling force. No one cares when that river is born among the rocks, and no one when it dies into the sea.

But yonder is another river, and it moses its banks with the warm tides, and it rocks with floral lullaby the water lilies asleep on its bosom. It invites herds of cattle, and flocks of sheep, and coveys of birds to come there and drink. It has three grist mills on one side and six cotton factories on the other. It is the wealth of two hundred miles of luxurious farms. The birds of heaven chanted when it was born in the mountains, and the ocean spinnaker will press in from the sea to hail it as it comes down to the Atlantic coast. The one river is a man who lives for himself, the other river is a man who lives for others.

PURSUERS OF THE SINS OF JERUSALEM.

Do you know how the site of the ancient city of Jerusalem was chosen? There were two brothers who had adjoining farms. The one brother had a large family, the other had no family. The brother with a large family said, "There is my brother with no family; he must be lonely, and I will try to cheer him up, and I will take some of the sheaves from my field in the night time and set them over on his farm and say nothing about it." The other brother said, "My brother has a large family, and it is very difficult for him to support them, and I will help him along, and I will take some of the sheaves from my farm in the night time and set them over on his farm and say nothing about it."

So the work of transference went on night after night, and night after night; but every morning things seemed to be just as they were, for though sheaves had been subtracted from each farm, sheaves had also been added, and the brothers were perplexed and could not understand. But one night the brothers happened to meet while making this generous transference, and the spot where they met was so sacred that it was chosen as the site of the city of Jerusalem. If that tradition should prove unfounded it will nevertheless stand as a beautiful allegory setting forth the idea that wherever a kindly and generous and loving act is performed that is the spot fit for some temple of commemoration.

I have often spoken to you about faith, but now I speak to you about works. "Faith without works is dead." I think you will agree with me in the fact that the great want of this world is more practical religion. We want practical religion to go into all merchandise. It will supervise the labeling of goods. It will not allow a man to say that a thing was made in one factory when it was made in another. It will not allow the merchant to say that his goods were manufactured in Geneva, Switzerland, when it was manufactured in Massachusetts. It will not allow the merchant to say that wine came from Madeira when it came from California. Practical religion will walk along by the store shelves and tear off all the tags that make misrepresentation. It will not allow the merchant to say that is pure coffee when dandelion root and chicory and other ingredients go into it. It will not allow him to say that is pure sugar when there are in it sand and ground glass.

When practical religion gets its full swing in the world it will go down the streets, and it will come to that shoe store and rip off the flimsy soles of many a fine looking pair of shoes, and show that it is pastboard sandwiched between the smooth leather. And this practical religion will go right into a grocery store, and it will pull out the plug of all the adulterated syrups, and it will dump into the ash barrel, in front of the store, the cassia bark that is sold for cinnamon, and the brick dust that is sold for cayenne pepper; and it will shake out the Prunella from the tea leaves, and it will lift from the floor plaster of paris and bone dust and soapstone, and it will by chemical analysis separate the one quart of Ragsworth water from the few honest drops of cow's milk, and it will throw

THE

he will feel his responsibility as the conservator of the public health, a profession honored by the fact that Christ himself was a physician. And it will make him honest, and when he does not understand a case he will say so, not trying to cover up lack of diagnosis with ponderous technicalities or send the patient to a reckless drug store because the apothecary happens to pay a percentage on the prescriptions sent.

And this practical religion will come to the school teacher, making her feel her responsibility in preparing our youth for usefulness, and for happiness, and for honor, and will keep her from giving a sky box to a dull head, chastising him for what he cannot help, and sending discouragement all through the after years of a lifetime. This practical religion will also come to the newspaper man, and it will help them in the gathering of the news, and it will help them in setting forth the best interests of society, and it will keep them from putting the sins of the world in larger type than its virtues, and its mistakes than its achievements.

Yes, this religion, this practical religion, will come and put its hand on what is called good society, elevated society, successful society, so that people will have their expenditures within their income, and they will exchange the hypocritical "not at home" for the honest explanation "too tired" or "too busy to see you," and will keep innocent from becoming infected with contagious conviviality.

Yes, there is great opportunity for missionary work in what are called the successful classes of society. It is no rare thing now to see a fashionable woman intoxicated in the street, or the rail car, or the restaurant. The number of fine ladies who drink too much is increasing. Perhaps you may find her at the reception in most exalted company, but she has made too many visits to the wine room, and now her eye is glassy, and after awhile her cheek is unnaturally flushed, and then she falls into fits of execrable laughter about nothing, and then she offers skulking flatteries, telling some homely lie to her husband, and then she is helped into the carriage, and by the time the carriage gets to her home it takes the husband and the coachman to get her up the stairs. The report is, she was taken suddenly ill at a German. Ah! she took too much champagne, and mixed liquors, and got drunk. That was all.

SOCIAL SINS IN HIGH PLACES.

Yes, this practical religion will have to come in and fix up the marriage ring in America. There are too many wives of churches who have too many wives and too many husbands. Society needs to be expurgated and washed and fumigated and Christianized. We have missionary societies to reform Elm street, in New York, and Bedford street, Philadelphia, and Shoreline, London, and the Brooklyn docks, but there is need of a declaration of war against much that is going on in Beacon street and Madison square and Rittenhouse square and West End and Brooklyn Heights and Brooklyn Hill.

We want this practical religion not only to take hold of what are called the lower classes, but to take hold of what are called the higher classes. The trouble is that people have a idea they can do all their religion on Sunday with hymn books, prayer books and liturgy, and some of them sit in church rolling up their eyes as though they were ready for translation, when their Sabbath is bounded on all sides by an inconsistent life; and while you are expecting to come out from under their arms the wings of an angel there come out from their forehead the horns of a beast.

There has got to be a new departure in religion. I do not say a new religion. Oh, no! but the old religion brought to new appliances. In our time we have had the daguerrotype, and the anubotype, and the photograph; but it is the same old sun, and these arts are only new appliances of the old sunlight. So this glorious gospel is just what we want to photograph the image of God on one soul and daguerrotype it on another soul. Not a new gospel, but the old gospel put in new work.

In our time we have had the telephone invention, and the telegraphic invention, and the electric invention, but they are all the children of old electricity, an element that the philosophers have a long while known much about. So this electric gospel needs to flash its light on the eyes and ears and souls of men, and become a telephone medium to make the deaf hear, a telegraphic medium to dart in vibration and warning to all nations, an electric light to illumine the eastern and western hemispheres. Not a new gospel, but the old gospel doing a new work.

CHRISTIANITY ALWAYS PRACTICABLE.

Now you say, "That is a very beautiful theory, but it is possible to take one's religion into all the avocations and business of life?" Yes, and I will give you some specimens. Medical doctors who took their religion into everyday life: Dr. John Abernethy, of Aberdeen, the greatest Scottish physician of his day, his book on "Diseases of the Brain and Spinal Cord" no more wonderful than his book on "The Philosophy of the Moral and Political Sciences," and his book on the bedside of his patients. He was a man of God in prayer. Dr. John Brown, of Edinburgh, immortal as an author, dying under the benediction of the sick of Edinburgh; myself remembering him as he sat in his study in Edinburgh talking to me about Christ and love of heaven. And a score of Christian family physicians in Brooklyn just as good as they were.

Lawyers who carried their religion into their profession: The late Lord Cairns, the queen's adviser for many years, the highest legal authority in Great Britain—Lord Cairns, every summer on his vacation resided in the town of Glasgow, and he was a man of God in prayer. Dr. John Brown, of Edinburgh, immortal as an author, dying under the benediction of the sick of Edinburgh; myself remembering him as he sat in his study in Edinburgh talking to me about Christ and love of heaven. And a score of Christian family physicians in Brooklyn just as good as they were.

Yes, this practical religion of which I speak will come into the learned professions. The lawyer will feel his responsibility in defending innocence, and arraigning evil, and expounding the law, and it will keep him from charging for briefs, he never wrote, and for pleas he never made, and for persons he never earned, and from robbing widow and orphan because they are defenseless. Yes, this practical religion will come into the physician's life, and

what church they attended on the Sabbath, what the text was, whether they had any special troubles of their own. Arthur Tappan. I never heard his eulogy pronounced. I pronounce it now. And other merchants just as good. William K. Dodge in the iron business. Moses H. Grinnell in the shipping business. Peter Cooper in the glue business. Scores of men just as good as they were.

Farmers who take their religion into their occupation: Why this minute their horses and wagons stand around all the meeting houses in America. They began this day by a prayer to God, and when they got home at noon, after they have put their horses up, will offer a prayer to God at the table, seeking a blessing, and this summer there will be in their fields not one dishonest head of rye, not one dishonest ear of corn, not one dishonest apple. Worshipping God today away up among the Berkshire hills, or away down amid the lagoons of Florida, or away out amid the mines of Colorado, or along the banks of the Passaic and Haverhill, where I knew them better because I went to school with them.

THE TRUE WORKMAN HONORS GOD.

Mechanics who took their religion into their occupation: James Brindley, the famous millwright; Nathaniel Bowditch, the famous ship chandler; Elihu Burritt, the famous blacksmith, and hundreds and thousands of strong arms which have made the hammer and the saw, and the adze, and the drill, and the ax sound in the grand march of our national industries.

Give your heart to God and then fill your life with good works. Consecrate to him your store, your shop, your banking house, your factory, and your home. They say no one will hear it. God will hear it. That is enough. You hardly know of any one else than Wellington as connected with the victory at Waterloo; but he did not do the hard fighting. The hard fighting was done by the Somerset cavalry, and the Tyne and Wear regiments, and the Life Guards. Who cares, if only the day was won?

In the latter part of the last century a girl in England became a kitchen maid in a farm house. She had many styles of work and much hard work. Time rolled on, and she married the son of a weaver of Halifax. They were industrious. They saved money enough after a while to build them a home. On the morning of the day when they were to enter that home the young wife arose at 4 o'clock, entered the front door yard, knelt down, consecrated the place to God, and there made this solemn vow: "O Lord, if thou wilt bless me in this place the poor shall have a share of it." Time rolled on and a fortune rolled in. Children grew up around them, and they all became affluence. One, a member of parliament, in a public place declared that his success came from that prayer of his mother in the door yard. All of them were affluent. Four thousand hands in their factories. They built dwelling houses for laborers at cheap rents, and when they were invalid and could not pay they had the houses for nothing.

One of these sons came to this country, admired our parks, went back, bought land, opened a great public park, and made it a present to the city of Halifax, England. They endowed an orphanage, they endowed two almshouses. All England has heard of the generosity and the good works of the Crossleys. Moral: Consecrate to God your store, your means, and your humble surroundings, and you will have larger means and grander surroundings. "Godliness is profitable unto all things, having promise of the life that now is, and of that which is to come." "Have faith in God by all means, but remember that faith without works is dead."

Wanted the Annex.

The actions of a man at the post-office the other day attracted attention. He kept going in and out, walking up and down the corridor and looking into the several windows, and he was finally asked what troubled him.

"I want to get a money order," he replied.

"Go to the annex."

"That's where the whole botheration comes in. I saw the sign up there, but I'll be hanged if I know what an annex is. Is it up stairs or down cellar?"

One of those clerks came forward, enough to give a bunch stealer the cold shake, but I never run up again an annex yet."

He was fully informed of its nature and location, and he started off saying: "Oh, that's it. It's an addition which they don't call it one! My shirt collar is a part of my dress, but you don't catch me going into a store and inquiring for a No. 16 annex."—Detroit Free Press.

Radicals in the French Parliament.

A correspondent asks, How do the Radicals in the present French parliament compare in numbers with the moderate Republicans, and did they gain or lose in the election of 1891? In the present chamber of deputies, which was elected in September, 1890, the Radicals are not as strong as they were in the chamber chosen four years earlier, while the Moderates are stronger. The Moderates control the present chamber, having a majority over the Radicals, the Bourbons and the Bonapartists combined. The preceding chamber was divided pretty evenly between the Moderates, the Radicals and the Bourbon Bonapartist group.—St. Louis Globe-Democrat.

Where Old Was First Used.

It is to the Persian language that we must go for the derivation of the term naphtha, the root napha meaning to exude, and the oil was so called on account of its exuding from the soil. The native naphtha of Persia and Japan would seem to have furnished the source of a large illumination from the very earliest ages. Its first authentic use in Europe would, however, seem to date back no farther than the latter part of last century, when a limited supply of "lamp oil" obtained from a distillation in Calabria was utilized by the Italian peasantry to light their dwellings.—Chambers Journal.

He Needs No Typewriter.

John Habington, the author of "Helen's Babies," is a two handed man. When engaged on a long article he changes from one hand to the other every fifteen or twenty minutes, and so avoids fatigue and that distressing complaint known as "scrivener's paralysis." To write at a stretch 12,000 words is rather a tiresome task. The fingers become cramped and a dull pain affects the palm of the hand. Habington can write 12,000 words by using his hands alternately without any painful sensation whatever.—New York World.
